

Sustainability and Green Initiatives

Hearn Kirkwood realizes our duty to operate in an environmentally responsible manner. We are making continuous efforts to improve our facilities and promote “Sustainable and Green” Initiatives and realize the critical importance of being an industry leader in supporting local sustainable initiatives.

How are we achieving these initiative?

- ❖ Year round support of local and regional procurement
- ❖ Reducing our carbon footprint by eliminating long haul deliveries with locally grown product where possible
- ❖ All trucks equipped with fuel saving systems and recycling emissions devices
- ❖ Warehouse lighting retrofit with new energy efficient low energy systems
- ❖ Compost fruit and vegetable waste
- ❖ Recycling wooden pallet and pallet exchanges
- ❖ Increased recycling containers throughout the buildings
